

NAMAN SHARMA

Automation Manager | Digital Transformation | MBA Candidate (SPJIMR)

Mumbai, India | +91 8890033399 | namansharma0297@gmail.com | LinkedIn | www.iamnaman.in

PROFESSIONAL SUMMARY

Automation Manager with **6.8 years** of progressive experience designing and delivering full-stack automation, RPA, and analytics solutions across global financial platforms. **Employee of the Year (2025–2026)** at JPMorgan Chase, recognized for building production-grade Python and React-based applications that improved trade booking, client reporting controls, and operational efficiency. Combines hands-on engineering depth (Python, Java, React/Node.js, SQL, GraphQL, RPA) with business strategy training from SPJIMR (**Rank 1, Semester 1**). Passionate about translating complex business problems into scalable, data-driven products.

CORE SKILLS

Programming & Engineering: Python, Java, JavaScript, React, Node.js, Streamlit, SQL, GraphQL, REST APIs, Cassandra DB

Automation & Testing: UiPath (RPA), Selenium, Playwright, BDD/Cucumber, Jenkins CI/CD, BitBucket, GitHub, RE Framework

Data & Analytics: Alteryx, Tableau, Advanced Excel, Data Pipelines, PDF Parsing (pdfplumber, PyMuPDF), Reconciliation Frameworks

Financial Domain: OTC Derivatives, Trade Booking, FX, Brokerage Operations, Liquidity & Capital Metrics (LCR, CET1, ROA, ROE, NIM)

Leadership & Delivery: Stakeholder Management, Cross-functional Program Delivery, Agile/Scrum, Mentorship, Risk & Controls, Strategic Planning

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co. — Automation Manager, Asset & Wealth Management

Jul 2021 – Present

Mumbai, India

*Driving automation strategy and full-stack solution delivery for IPB Platform Modernization (PMOD), one of JPMorgan's largest global transformation programs. **Employee of the Year (2025–2026)** for impact across trade booking, client reporting, and operational controls.*

Flagship Solutions (Current)

- **OTC Derivatives Trade Booking Platform** — Designed and built a full-stack application automating trade booking across **15 OTC derivative products**. Architected the React/Node.js + Streamlit front-end for transaction capture and integrated with downstream booking systems to submit trades end-to-end in UAT, replacing manual booking workflows for the testing organization.
- **Client Statements & Confirmations Reconciliation Framework** — Built a Python-based post-generation PDF validation engine (pdfplumber, Kerberos auth, multiple parsing libraries) that parses client-facing statements/advices and reconciles every field against source-of-truth data via business mappings. Front-end in React + Streamlit; backend integrates with Cassandra DB, GraphQL, SQL, and multiple internal APIs. Adds a critical control layer before client documents are dispatched; positioned for production rollout.
- **Recognition** — Awarded **Employee of the Year (2025–2026)** at JPMorgan Chase for outstanding contribution to automation, controls, and platform delivery.

Program Leadership & Delivery

- Defined the end-to-end automation roadmap for AWM Operations under the PMOD program; presented strategy to LOB leadership and standardized delivery governance across test engineering, data validation, and automation streams.
- Built and rolled out a global Alteryx + Tableau dashboard suite integrated with qTest, JIRA, and Confluence APIs — adopted by **500+ professionals** globally; recognized with **Best Dashboard Award**.

- Mentored **200+ professionals** quarterly across Python, Alteryx, Tableau, and SQL; recognized through multiple Innovation and Excellence Awards (2021–2025).

Automation & RPA Engineering

- Engineered **720 UiPath bots** on a custom RE Framework for the PBA / Charles River IMS program, delivering **~90% time reduction** and **120 hours saved monthly**.
- Delivered an FX Trade Booking automation for the Hong Kong and IPB teams (**~95% time reduction, 16–20 hours saved weekly**) — **Best Automation Solution Award, Q3 2022**.
- Built a Python-based reconciliation solution for the Market & Static Stream comparing accounts and instruments end-to-end; achieved **99% time reduction** and **320+ hours saved per quarter**, with findings driving business logic and technical fixes in production.
- Developed a Python Playwright + Streamlit platform allowing non-technical and business users to book and test brokerage product trades through a browser, expanding test coverage to non-testers.
- Delivered a Brokerage Fees Automation for the IPB and Geneva teams using Alteryx and Tableau (**~95% time reduction**); deployed **30+ Alteryx solutions** across AWM, cutting manual effort **95–99%** and standardizing reporting governance.
- Built Selenium frameworks in both Python and Java with BDD/Cucumber, integrated with Jenkins CI/CD pipelines for continuous testing and reporting on complex financial applications.

Deloitte USI — Business Technology Analyst, Consulting

Jul 2019 – Jun 2021

Mumbai, India | Client: Health Department, State of Louisiana, USA

- Designed and executed testing strategies for healthcare software deployments, including critical COVID-19 enhancements that ensured uninterrupted Medicaid enrollment for US citizens during the pandemic.
- Built a daily data-integrity process that prevented incorrect notification mailings to citizens and served as SQL SPOC for the DEV/SIT team on data updates and environment fixes.

EDUCATION

S. P. Jain Institute of Management & Research (SPJIMR), Mumbai

Aug 2024 – 2026

MBA — Post Graduate Programme in General Management (Sponsored by JPMorgan Chase)

- **Rank 1, Semester 1** (out of full cohort).
- Capstone — **Project LEAP: Liquidity Efficiency Automation Project** — applying AI/automation to enhance Liquidity Coverage Ratio (LCR) reporting in Treasury Operations.

Symbiosis Institute of Computer Studies & Research (SICSR), Pune

Jun 2016 – 2019

Bachelor of Computer Applications (BCA)

AWARDS & RECOGNITION

- **Employee of the Year, JPMorgan Chase — 2025–2026**.
- **Best Automation Solution Award (Q3 2022)** for the FX Trade Booking automation.
- **Best Dashboard Award** for the global PMOD Alteryx + Tableau dashboard suite.
- Multiple Innovation and Excellence Awards across JPMorgan Chase (2021–2025).
- **50+ peer recognitions** from colleagues across JPMorgan Chase — full list of awards, testimonials, and recognitions available at www.iamnaman.in.
