

NAMAN SHARMA

Automation Manager | Digital Transformation | MBA, SPJIMR

Mumbai, India • +91 8890033399 • namansharma0297@gmail.com • [LinkedIn](#) • iamnaman.in

PROFESSIONAL SUMMARY

Automation and digital transformation leader who **automates regulated financial workflows at enterprise scale**, OTC derivatives, trade booking, client reporting controls, and reconciliation across global financial services. **7 years of full-stack automation**, RPA, and analytics delivery; **Employee of the Year 2025–26** at JPMorgan Chase for production-grade Python and React systems serving **500+ global users**. Combine engineering depth (Python, Java, React/Node.js, SQL, GraphQL, RPA) with an Executive MBA from **SPJIMR, a top-tier B-school in India**.

CORE SKILLS

Engineering & Architecture: Full-Stack Automation, RPA, Backend Services, Front-End Delivery, API Integration, Data Pipelines, Reconciliation Frameworks, PDF Parsing

Technologies: Python, Java, JavaScript, React, Node.js, Streamlit, SQL, GraphQL, REST APIs, Cassandra, UiPath, Selenium, Playwright, Alteryx, Tableau, Jenkins, BitBucket, GitHub, CICD, BDD

Data & Analytics: Dashboarding, Reporting Automation, Financial Statement Analysis, Balance Sheet and P&L Analysis

Financial Domain: Equities, Mutual Funds, Fixed Income, OTC Derivatives, Trade Booking, FX, Brokerage Operations, Liquidity & Capital Metrics (LCR, CET1, ROA, ROE, NIM), Balance Sheet, PnL Sheet

Leadership & Delivery: Digital Transformation, Cross-functional Program Delivery, Stakeholder Management, Automation Governance, Agile / Scrum, Risk & Controls, Strategic Planning, Mentorship

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co., Automation Manager, Asset & Wealth Management

Mumbai, India

Jul 2021 to Present

Leading automation development, strategy and delivery for **IPB Platform Modernization (PMOD)**, one of JPMorgan's largest global transformation programs.

Flagship Platform Delivery

- Architected a full-stack **OTC Derivatives Trade Booking Platform** automating booking across **15 derivative products**. React / Node.js + Streamlit front-end integrated with downstream booking systems.
- Built a Python **Client Statements and Confirmations Reconciliation Framework** that parses client facing PDFs and reconciles every field against source-of-truth data via business mappings. Backend integrates Cassandra, GraphQL, SQL, and internal APIs, adding a **critical pre-dispatch control layer** positioned for production rollout.
- Awarded **Employee of the Year 2025–2026** at JPMorgan Chase for outstanding contribution to automation, controls, and platform delivery.

Digital Transformation & Program Leadership

- Defined **end-to-end transformation roadmaps** spanning testing, development, and release for PMOD. Built status-tracking and EOD reporting systems giving LOB leadership real-time visibility into progress, blockers, and risk across **500+ contributors globally**.

- **Partnered with product owners, business analysts, and engineering teams** to translate ambiguous requirements into technical deliverables, resolving cross-functional blockers across AWM Operations.
- Drove adoption by mentoring **200+ professionals quarterly** across Python, Java, RPA, Alteryx and Tableau.

Automation & RPA Engineering

- Engineered **720 UiPath bots** using RE Framework for the Charles River IMS program, delivering **~90% time reduction** and **120 hours saved per month**.
- Delivered an **FX Trade Booking automation** for the Hong Kong, IPB teams achieving **~95% time reduction** and **16 to 20 hours saved weekly**. Won the **Best Automation Solution Award, Q3 2022**.
- Built a Python reconciliation solution for the Market & Static Stream comparing accounts and instruments end-to-end. Achieved **99% time reduction (320+ hours saved per quarter)**.
- Rolled out a **global Alteryx + Tableau dashboard suite** integrated with qTest, JIRA, and Confluence APIs, adopted by **500+ professionals globally**. Won the **Best Dashboard Award**.
- Delivered Brokerage Fees Automation for the IPB and Geneva teams (Alteryx + Tableau, **~95% time reduction**). Deployed **30+ Alteryx solutions** across AWM, cutting manual effort **95 to 99%**.

Deloitte USI, Business Technology Analyst, Consulting

Mumbai, India

Jul 2019 to Jun 2021

Client: Health Department, State of Louisiana, USA

- Designed and executed testing strategies for healthcare software deployments, including critical **COVID-19 enhancements** that ensured **uninterrupted Medicaid enrollment** for US citizens during the pandemic.
- Built a daily data-integrity process preventing incorrect notification mailings to citizens; served as **SQL SPOC** for the DEV/SIT team on data updates and environment fixes.

EDUCATION

S. P. Jain Institute of Management & Research (SPJIMR)

Mumbai, India

Aug 2024 to Oct 2026

MBA, Post Graduate Programme in General Management.

- **SPJIMR is consistently ranked among the top B-schools in India** (AACSB, AMBA, EQUIS accredited), known for leadership, strategy, and operations rigour.
- Capstone: **Project LEAP, Liquidity Efficiency Automation Project**, applying AI and automation to enhance LCR reporting in Treasury Operations.

Symbiosis Institute of Computer Studies & Research (SICSR)

Pune, India

Jun 2016 to 2019

Bachelor of Computer Applications (BCA)

AWARDS & RECOGNITION

- **Employee of the Year, JPMorgan Chase (2025 to 2026)**.
- **Best Automation Solution Award (Q3 2022)** for the FX Trade Booking automation.
- **Best Dashboard Award** for the global PMOD Alteryx + Tableau dashboard suite.
- **Multiple Innovation and Excellence Awards** across JPMorgan Chase (2021 to 2025).
- **50+ peer recognitions** from colleagues across JPMorgan Chase. Full list of awards, testimonials, projects, and photography portfolio at www.iamnaman.in.
